

Below items will be inspected and tested

- Lifeboat (validity of shore inspection report, engine running, rudder turn etc.)
- Life rafts (validity of inspection report)
- Launching appliances (foundation intact and wire condition etc. On-load/ off-load lifeboat release gear demonstration of release to main deck and take back etc.)
- Outfitting and cleanliness of E/R and steering gear room, main deck, and superstructures
- Fixed pressure water spray system for special category space (if fitted: E/R, Paint store etc.)
- Radars / VDR (no error) /Speed log (no error) /ECDIS (display latest update) / AIS /EPIRB / SART / BNWAS etc.
- Daylight signal lamp device
- Magnetic compass deviation curve /table
- Fixed fire detection systems ,Fire detector (control main panel no error)
- Nautical charts and publications
- Water mist / water sprinkler
- Structural fire integrity (fire door, insulation etc.)
- Quickly closing device
- Oily water separator and 15 ppm test
- Incinerator (function test)
- Sewage treat plant (function test)
- Boiler (safety valve release gear to be operated manually, safety protective device to be tested)
- M/E oil mist high level alarm
- M/E fuel leak alarm
- A/E fuel leak alarm, Low L.O. Pressure alarm
- E/R bilge alarm
- E/R ventilator fire damper / funnel fire damper
- Emergency stop
- Emergency steering gear
- Emergency air compressor
- Emergency escape truck Fire damper (E/R ventilator and funnel)
- Emergency fire pump (two hose, one forward, one bridge or astern)
- Fire main (inspection fully with working pressure)
- Emergency source of electrical power and emergency generator
- Hatch access / BWT air pipe heads/ main deck /
- Ship certificates and documents, officers and ratings certification

Below soft or hard copy to RINA surveyor:

Asbestos free declaration

No change – master statement

Bunker delivery note

Tail shaft LO analysis report

Megger measurement record

Boiler water dose chemist report

AIS / EPIRB / VDR /SSAS /GMDSS service report

EEBD Immersion suit / SCBA / Fireman outfit valid service report

FFE / Fixed CO2 weight /Foam valid analysis report

Lifeboat / Rescue boat/ Life raft valid service report.

Below certificates and documents to be verified by RINA surveyor on board:

Class and statutory certificates and supplements (issued by previous class and flag)

Continuous Synopsis Record

Deck log-book /flag official log book/GMDSS log book/master night order book/

Drill records (fire-fighting/ abandon ship / emergency steering gear operation /enclosed space entry and rescue drill etc.

Pilot information card

Fire control plan exhibited

Approved stability documentation

Life Saving Appliance manual and training booklet/ onboard maintenance record

International Aeronautical and Maritime Search and Rescue Manual (IAMSAR) Vol.III

Ballast water management plan/ Ballast water record book

SOPEP

EIAPPC

Technical file

Fuel change over procedure if applicable

Oil record book

Type approval certificate for incinerator/ incinerator manual

Type approval certificate for OWS / OWS manual/ calibration certificate MEPC 107(49) if applicable

Confirmation of Compliance(MARPOL ANNEX VI) on ships

Statement of Compliance (MARPOL ANNEX VI) on ship
